Experience

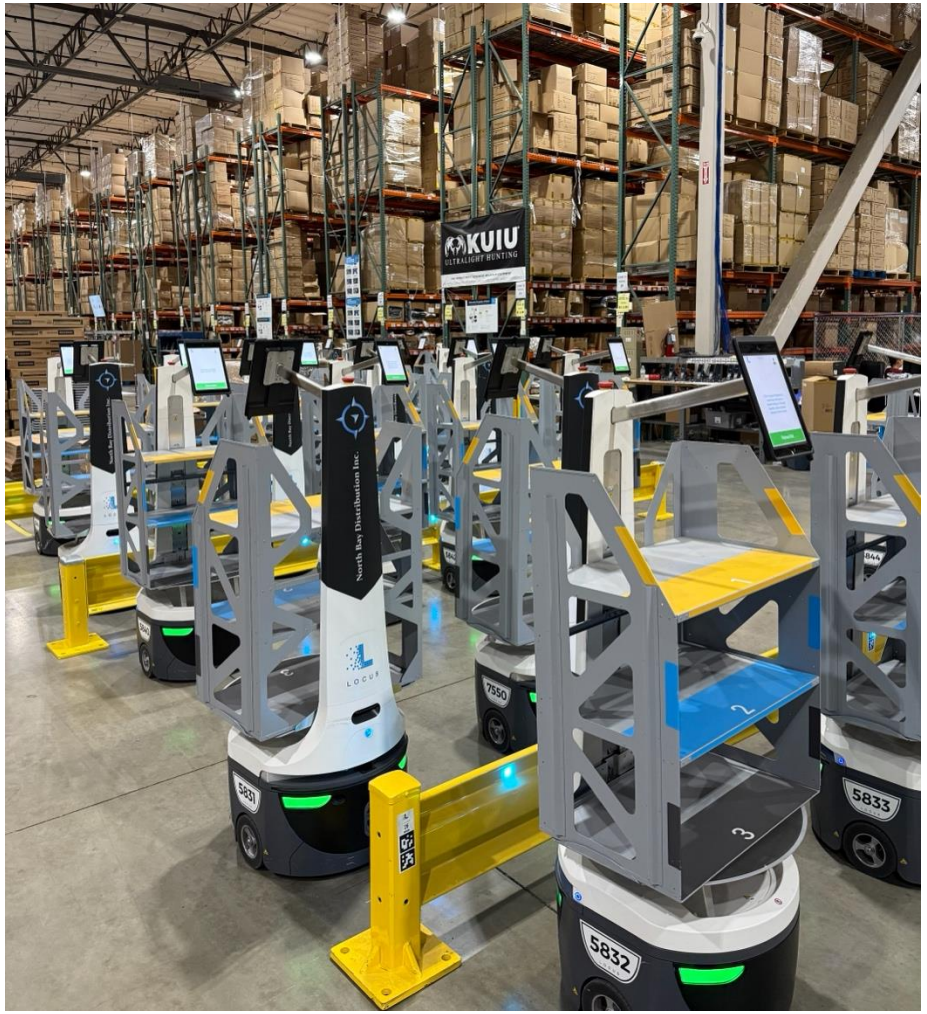
Note: The images in this presentation are either my own property or publicly available. They are used only to demonstrate and showcase my skills and should not be used for any other purpose.

Operations Project Manager, North Bay Distribution, Inc.

May 2025 - Present

Managed logistics (Inbound and Outbound) for 30+ client accounts

- My role focuses on managing special projects like assembly, disassembly, and sales day preparation distinct from the day-to-day workflow handled by the Operations Manager.
- For inbound and outbound fulfillment, I coordinate the receipt of goods into the warehouse and manage the picking, packing, and shipping of orders. This involves working closely with clients to align on their specific requirements, such as delivery schedules.
- For labor tracking, I monitor associate productivity using tools like our TZA Protrack to track metrics like orders picked per hour. I created the UPH Tracking sheet to get a clear idea about how much units are being packed per hour so then I can set a target for them to maximize productivity.



Led Warehouse Automation

- Partnered with the IT Project Manager for a 2-week testing phase, ensuring system readiness for daily operations.
- After receiving approval, I integrated it into daily operations, achieving approximately 2,500 picks per day. I thoroughly documented the process and closed out the project.
- Currently, we are tracking efficiency and monitoring KPIs to identify needed improvements.

Drafted SOP's and Created Operational Workflows

(This is an example. Actual SOPs cannot be shared due to confidentiality.)

SOPs: Blue Canoe

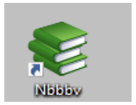
First Thing in the Morning

- Open **Google Chrome**.
- Check and respond to any **unanswered emails**. Clarify any doubts as needed.

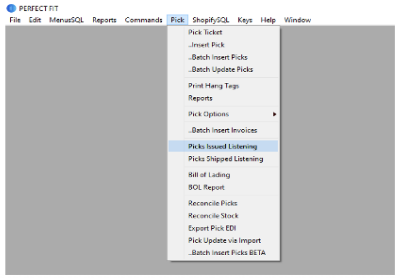
Picking

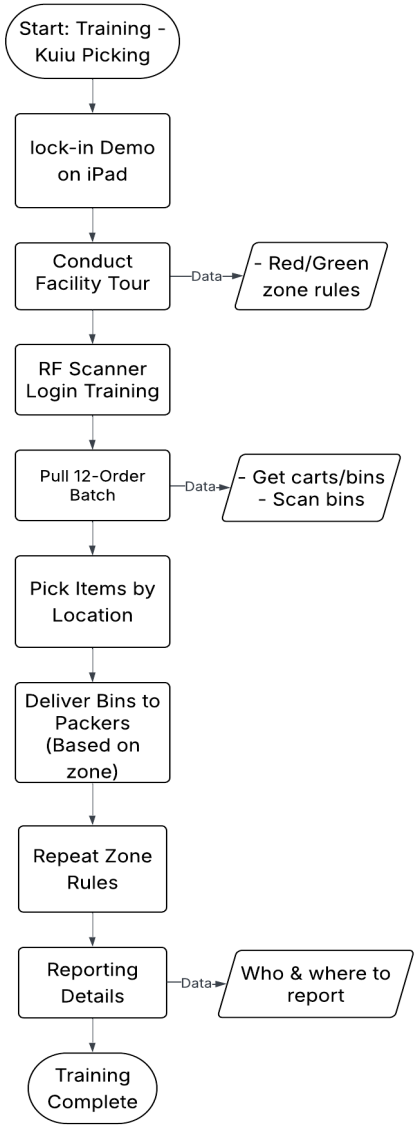
Step 1: Preparing Pick Tickets

- On your desktop, open the **Nbbby application**.



- Log in using:
  - **Username**: NB
  - **Password**: 9984
- Click **Enter**.
- Go to **MenusSQL** (located next to "Edit").
- Click on **Orders from Customers**.
- Select **Pick**.





Spearheaded Analytics & Client Onboarding

- Developed Power BI dashboards to track associate performance and warehouse activity metrics
- Led onboarding of new client FLOYD, **setting up inventory locations for 150+ SKUs** and **drafting SOPs** for logistics processes to ensure seamless integration.

Row Labels	PF Locs	Upper Loc/SKU	PF Bays	Reserve Bays	PF Locs	Reserve Locs
Bin Loc	35	40	2	7	50	42
Rack Loc	67	588	34	98	68	588
Grand Total	**102**	**628**	**36**	**105**	**118**	**630**

Estm Rows	6
Rack PF	176
Reserve Locs	540
Rack Locs	**716**
Bays/Aisle	30
Estm Aisles	**3**

P&L Calculation

- Build a P&L model for Cartesian Kinetics (Omni Rack robotics system), set profit-maximizing pick volumes, run volumetric and tote-fit analysis to select high-volume SKUs, and design operational flow to maximize productivity

Cycle time: 15 min per backpack → Units/day = 450 ÷ 15 = 30	30
Cycle time: 14 min per backpack → Units/day = 450 ÷ 14 = 32.14	32.14285714
Cycle time: 13 min per backpack → Units/day = 450 ÷ 13 = 34.61	34.61538462
Cycle time: 12 min per backpack → Units/day = 450 ÷ 12 = 37.5	37.5
Cycle time: 11 min per backpack → Units/day = 450 ÷ 11 = 40.9	40.90909091
Cycle time: 10 min per backpack → Units/day = 450 ÷ 10 = 45	45

2		5S AUDIT			
3	**Company:**		4 Total Compliance	1 Very little compliance	
4	**Area Audited:**		3 Significant Compliance	0 No compliance	
5	**Account Manager:**		2 Some Compliance		
6	**Date:**				
7					
8	**Area**	**Question**	**Score out of 4**	**Comments / Actions**	
9	**Sort - determine status needed and improve the rest**				
10	Sort	Have all unnecessary items (tools, equipment, boxes etc.) been removed from the area?			
11	Sort	Are all remaining items (tools, equipment, etc.) neatly arranged?			
12	Sort	Are tools & equipment in the most convenient location - tools at hand & workstations easy to access?			
13	Sort	Do cupboards, storage cabinets & other enclosed areas contain only essential items?			
14	**Set in order a place for everything & everything in its place**				
15	Set in Order	Are shelves, storage areas clearly defined with location indicators etc. fully marked?			
16	Set in Order	Are walkways & storage clean, unobstructed & clearly marked?			
17	Set in Order	Are personal belongings stored in lockers provided? (if no lockers, must be stored tidily in allocated area)			
18	Set in Order	Safety equipment - Are fire extinguishers & other eqpt in place and correct?			
19	**Shine - Organising & sorting or try to keep it organised**				
20	Shine	Floors are kept clean, tidy and in a good state of repair?			
21	Shine	Is all work equipment clean and tidy - free from build up of dust or visible leaks or preventable spillages?			
22	Shine	Bins - Are these properly maintained and regularly emptied?			
23	Shine	Is the cleaning equipment clean and of a good and presentable standard?			
24	**Standardise - Make sure standards are maintained**				
25	Standardize	Lighting, heating and cooling - Is lighting, heating and cooling adequate for the work conducted? Any roof leaks?			
26	Standardize	Have re-stock levels been established, clearly marked and in use?			
27	Standardize	Is information vital for work to be carried out available? (SOP's, Schedules, Clean & Checksheets, etc.)			
28	Standardize	All Company notice boards are up to date and relevant? (not including 5S notice board)			
29	Standardize	Are there 5S workplace standards - are these up to date and relevant for the area?			
30	**Sustain - Maintaining standards & constantly seeking to improve**				
31	Sustain	Are the 5S improvement actions steps being actioned & maintained?			
32	Sustain	Has the standard in the area been properly policed & maintained/improved?			
33	Sustain	Education of employees - Can the people in the area explain the benefits of 5S?			
34

Industrial Engineering Intern, North Bay Distribution, Inc.

May 2024 - August 2024

Led Inventory Optimization and Inventory Control Initiatives

- Led operations improvement project, conducting thorough audits to identify inventory inaccuracies across multiple client accounts.
- **Reorganized inventory for 500+ SKUs** for clients like New York Transit, KUIU, Etc. optimizing specific sections to enhance accuracy and streamline pick-pack workflows.
- **Impact**: Improved order fulfillment speed by 10% and inventory accuracy

Conducted Time and Motion Study

- **Conducted time and motion studies** across two warehouse facilities, analyzing workflows to identify process bottlenecks.
- **Evaluated warehouse layouts**, optimizing configurations to streamline operations and reduce non-value-added activities by 20%.

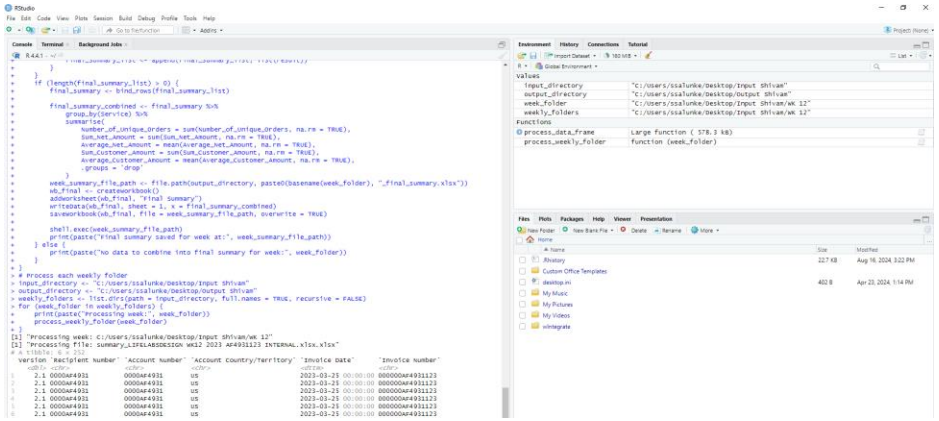
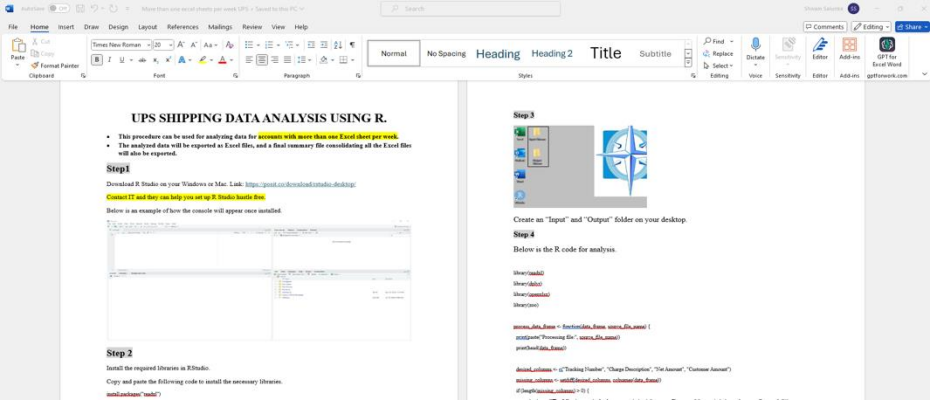
2023 vs 2024





UPS SHIPPING DATA ANALYSIS USING R.

- This procedure can be used for analyzing data for accounts with more than one Excel sheet per week.
- The analyzed data will be exported as Excel files, and a final summary file consolidating all the Excel files will also be exported.

Step1

Download R Studio on your Windows or Mac. Link: https://posit.co/download/rstudio-desktop/

Contact IT and they can help you set up R Studio hustle free.

Below is an example of how the console will appear once installed.

Step 2

Install the required libraries in RStudio.

Copy and paste the following code to install the necessary libraries.

install.packages("readxl")

Step 3

Create an "Input" and "Output" folder on your desktop.

Step 4

Below is the R code for analysis.

Supply Chain Management Intern, USC Auxiliary Services

August 2023 – March 2024

Drove Supply Chain Coordination & Procurement

- **Coordinated cross-functional supply chain activities** for New Product Introduction, achieving 95% pre-launch inventory accuracy by aligning merchandising, sales, and operations.
- **Improved demand forecast accuracy by 15%** using Excel and Power BI to analyze trends and seasonality, reducing stockouts for high-demand SKUs during peak season.
- **Evaluated 50+ supplier proposals**, supporting commodity alignment to streamline procurement and enhance vendor decision-making.
- **Assisted in purchase order creation** for 3 core suppliers, ensuring consistency in pricing, lead times, and delivery schedules for critical inventory.

Operations Engineering Intern, Maruti Seals Pvt. Ltd

December 2022 – May 2023

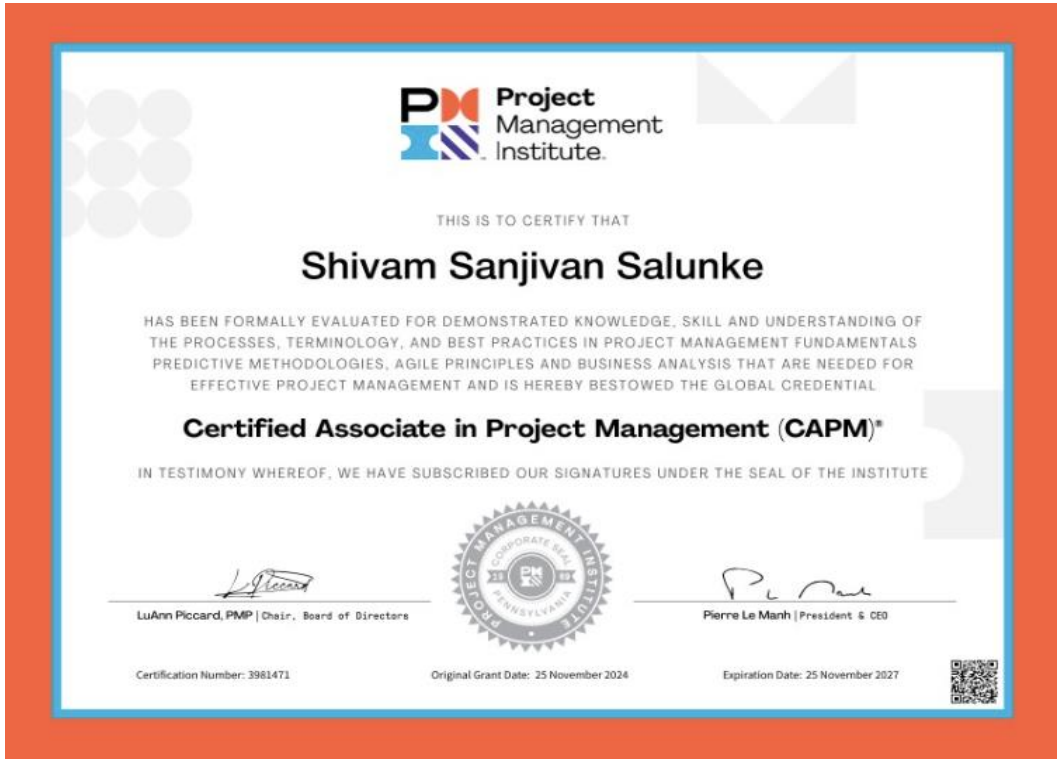
- Executed the full P2P cycle in SAP S/4HANA, from validating Purchase Requisition (PR) to Purchase Order (PO) issuance, Goods Receipt (GR), and Invoice Verification (MIRO), ensuring seamless procurement process
- Partnered with supply and demand planning teams to align procurement schedules with forecasted needs, optimizing inventory levels and cutting excess stock costs by $3K+ while maintaining safety stock requirements
- Designed and executed a multi-vendor sourcing strategy, reducing single-supplier dependency by 40% and lowering procurement spend by 10%, while monitoring vendor KPIs such as on-time delivery and quality
- Managed complete RFQ cycles, vendor communications, and contract/pricing negotiations, driving a 15% reduction in order cycle times and improving restocking efficiency across multiple material categories

Operations Management Intern, New Bharat Engineering Works

January 2022 – July 2022

- Prepared and submitted competitive budget proposals for government tenders, ensuring compliance with bid requirements and seamlessly securing contracts worth over $10k.
- Oversaw end-to-end project execution, supervising planning, scheduling, and installation of 10+ air compressor units (450– 800 CFM), ensuring 100% on-time delivery and adherence to project schedule.
- Developed maintenance and supply schedule for ship-deployed air compressors, pre-planned maintenance supplies, and consumables to ensure seamless operations, achieving a 15% increase in efficiency.
- Led project documentation process by maintaining comprehensive service entry records, and ensuring accurate billing for projects worth over $100,000, enhancing financial accuracy.

Certificates



Project Management Institute

THIS IS TO CERTIFY THAT

Shivam Sanjivan Salunke

HAS BEEN FORMALLY EVALUATED FOR DEMONSTRATED KNOWLEDGE, SKILL AND UNDERSTANDING OF THE PROCESSES, TERMINOLOGY, AND BEST PRACTICES IN PROJECT MANAGEMENT FUNDAMENTALS PREDICTIVE METHODOLOGIES, AGILE PRINCIPLES AND BUSINESS ANALYSIS THAT ARE NEEDED FOR EFFECTIVE PROJECT MANAGEMENT AND IS HEREBY BESTOWED THE GLOBAL CREDENTIAL

Certified Associate in Project Management (CAPM)®

IN TESTIMONY WHEREOF, WE HAVE SUBSCRIBED OUR SIGNATURES UNDER THE SEAL OF THE INSTITUTE

LuAnn Piccard, PMP | Chair, Board of Directors

Pierre Le Manh | President & CEO

Certification Number: 3981471

Original Grant Date: 25 November 2024

Expiration Date: 25 November 2027

COUNCIL FOR SIX SIGMA CERTIFICATION C.S.S.C.

LEAN SIX SIGMA BLACK BELT

Certification that

Shivam Salunke

Has satisfactorily completed and has demonstrated proficiency in the curriculum set forth by the Council for Six Sigma Certification to be awarded the title of Certified Black Belt.

Managing Director

Certification Number: 3EJtfR7E9u

Certification Date: December 20th, 2024

University of Southern California

25YJ-XA0U-S4E4

The Trustees of the University by virtue of the authority vested in them and on the recommendation of the faculty of

The Andrew and Erna Viterbi School of Engineering

have conferred the degree of

Master of Science
Engineering Management

on

Shivam Salunke

Given at Los Angeles, California, on the sixteenth day of May, in the year two thousand and twenty-five.
